BOYS CONFESS MORE THEFTS

Admit Shoplifting From Downtown Stores For Several Weeks

The two twelve-year-old Escanaba boys who admitted to police Friday night five Memorial Day robberies in which they stole over \$600 in cash and a number of flashlights, a gun and several other articles, confessed yesterday to several other thefts in downtown stores in the past few weeks and admitted unsuccessful attempts to break into the Peoples Drug Store, Doris shop, Fair store, Manning's shoe store, Neisner's and Beck's food store.

A \$4 watch, which police officers have recovered, the boys said they took from the West End drug store a short time ago. They also pilfered several dollars in change from the LeClair barber shop, a couple of flashlights from the Badger Paint store, a hunting knife from Baum's Hardware, purse at the Fair store and baseball from Kresge's. Six rolls of out-of-date movie tickets they admitted taking in two visits to the Delft theater store room, were also recovered.

The local juvenile investigator for the state must complete his probe of the case before the boys are brought before Probate Judge William J. Miller.

Washington.—Obscured by the strike news, a vitally important battle is being waged back-stage in Washington over the control of German patents. The battle illustrates how when Harry Truman knows his onions he always tries to follow

> through. The issue involves whether German patents seized by the U. S. Government during the war shall be opened to all companies; or monopolized by one.

Most important German company seized in this country is General Aniline and Film. It owns hundreds of valuable patents of great benefit to

Pearson all American industry. When it was seized by Alien property custodian Leo Crowley, Crowley placed on the board of directors Victor W. Emanuel of Aviation Corporation, Standard Gas and Electric, and other big corporations; also George Allen, another Victor Emanuel messenger boy. It so happend that Victor Emanuel was then paying Crowley a salary of \$60,000 a year, even though Crowley was also acting as Alien Property Custodian.

It also happened that George Allen, though right-hand adviser to Truman, was being paid several salaries by Victor Emanuel as a director of Republic Steel. Aviation Corporation, Vultee Aircraft, etc.

This nice, neat little keep-it-in-the-family arrangement has continued, even though Leo Crowley is now out of the government. Since then his stooge, James Markham, also close to Victor Emanuel, has continued to let General Aniline and Film hog the Nazi patents.

Finally, the Government's Cartel Committee held a hearing to decide the fate of these patents. General Aniline and Film no longer run by the Nazis but still determined to keep Nazi patents from American industry, hired patent attorney Will Davis to plead its case. But the committee ruled otherwise, decided all Americans contributed to winning the war, therefore all American industry should have access to enemy patents seized during the war.

Only dissenting vote was Leo Crowley stooge James Markham, who succeeded search. Legal or medical advice Crowley as Alien proptery custodian cannot be given. * That the cost of medical care has risen, no one can deny. But the rise has not been out of proportion to the general advance in the cost of living. At the same time the quality of medical service has been immeasurably improved.

Consider that today your physician has invested from eight to ten years and about ten thousand dollars in his education alone. He has no chance to earn until he is twenty-six or twenty-seven years old. He must have an office in a good neighborhood, good equipment, a car, good clothes.

Pharmacy, too, has stepped up its standards. Almost every state now requires four years of college and a year or two of practice before registration. All this adds up to better medical service for you.

RAILWAY UNION DISPUTE BARED

Engineers And Trainmen Brotherhoods Raid Other Groups

By PETER EDSON

Washington-NEA)- This Alvanley Johnston and that Alexander Fell Whitney to whom President Truman gave such a terrible dressing-down in public are also cast as the villians in longstanding warfare that goes on beneath the surface of railroad labor brotherhood tranquility. It is a bitter jurisdictional and membership-raiding dispute with long history. It was one of the principal reasons for the strike though it has never come out in the open and has never been the subject of a dispute with railroad management.

In brief, the charges are that Whitney's Brotherhood of Rail-Trainmen and Johnston's Brotherhood of Locomotive Engineers are putting on big organizing drives, raiding the other railroad brotherhoods and trying to gain control of, or the dominant position among, all the socalled "operating" railroad men, meaning the people who run the

The other brotherhoods with whom Whitney and Johnston are principally in conflict are these:

60,000 members, including a number of brakemen, H. W. Fraser,

The Switchmen's Union, 15,000 members, smallest of the group but tremendously powerful and financially well off, T. C. Cashen

The bitterness of this fight is deep. It may take years to heal the wounds of the strike and restore the good name of the rail way brotherhoods as peaceful law-abiding unions. Not only that, but, for having pulled this strike, Whitney and Johnston are accused of endangering the Railway Labor Act and its mediation

Man Who Battled

Outlaws In West Is Now Nearly 85

Jeff D. Milton sent that message | Eloda of Iron Mountain and son after being assigned to bring in who has been recently discharge hree train robbers half a century from the Navy, visited at the Ed ago when he was a one-man bord-

er patrol of the southwest. As he approaches his 85th birthday, Milton looks back on a life spent in battling lawlessness, a life during which he earned a reputation among the outlaws and pioneers for speed and accuracy with a six-shooter.

How many men Milton has killed as a law officer probably isn't recorded. Said Daniel W. Mac-Cormick while U. S. immigration commissioner: "since the early eighties he has been one of the best shots in the southwest . . .

'In that era he closed the careers of many a temporary bad nan, with bullets or handcuffs as he circumstances dictated.'

For himself, Milton says: never killed a man who didn't need killing, and I never shot an animal except for meat.'

So quick was he on the draw that Pancho Bedoya, the Mexican leader, called him "the man with the eyes in the back of his head.' Then Bedoya shrugged his shoulders and added, 'if he had not had them there, he would have been

Lorraine Fillion, Orelle Beauchamp Are Wed Yesterday

At a wedding which took place yesterday morning at 10 o'clock at St. Ann church, Miss Lorraine Fillion, daughter of Mrs. Helena Fillion, 621 South 16th street, became the bride of Orelle Beau-champ, son of Mr. and Mrs. Joseph Beauchamp of Perkins. The couple exchanged vows before the Rev. Fr. Q'Neil D'Amour, who was celebrant of the Mass of the

Red peonies decorated the altar of the church. Traditional wedding music was played by the organist, Miss Bernadette Cossette. At the offertory, Miss Mary Ellen Servant sang "Ave Maria."

The bride wore an attractive gown styled with a white satin bodice and net skirt. Her fingertip veil was gathered in a crown of pearls, and she wore a pearl necklace, gift of the bridegroom. She carried a silver rosary with lilies-of-the-valley streamers.

Attending the couple were Miss Betty Beauchamp and Robert Beauchamp, brother and sister of the bridegroom. Miss Beauchamp wore a shell-pink gown with taffeta bodice and net skirt, and a maching shoulder veil. She carried a colonial bouquet.

Mrs. Fillion attended her daughter's wedding wearing a green and white floral print Jersey dress, with a shoulder corsage of red roses. Mrs. Beauchamp wore a dress of aqua crepe, and her flowers were pink carnations and

Committee Votes No Changes In Big Ten Conference Members

Champaign, Ill., June 1 (AP) -The Western Conference faculty committee today voted to make no changes in conference membership at the present ame.

Michigan State had made formal application for membership of Chicago, whose resignation was formally accepted today. Pittsburgh had also asked for consideration if any changes were made but had not made formal applica.

The faculty committee made no announcement as to any action on a rumored bid from the Pacific Coast Conference to participate in Rose Bowl games.
